Automotive Terminology

- Permanent Magnet Synchronous Motor (PMSM).
- The Geely EX2 is equipped with a rear-wheel drive (RWD) system that delivers a sporty and emotional driving experience.
- Incorporating a suite of technologies to deliver a smooth and comfortable experience.

High-performance battery.

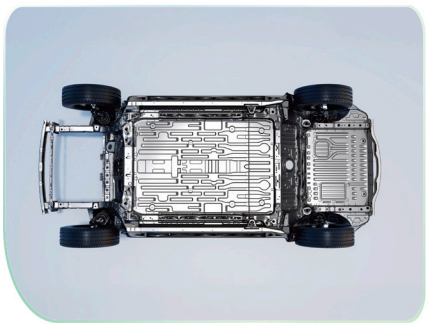

- Geely-developed CTP battery design with liquid cooling delivers optimal discharge performance and enhanced longevity.
- Powered by CATL.
- Ensuring superior safety: flame- and explosion-proof, impact-resistant, and water-submersible.
- Real-time monitoring via 18 temperature sensors.

GEA global architecture

- A global smart new energy vehicle architecture seamlessly integrating "hardware, system, ecosystem, and AI."
- Inheriting Geely's "Safety DNA" legacy and adhering to the "Safety First" strategy, GEA targets the ultimate goals: zero accidents, zero health impact, zero property loss, and zero user data leaks.

Tri-directional structure

- Designed for comprehensive protection, the tri-directional energy -absorbing structure redirects collision energy from multiple directions to keep passengers safe inside the vehicle.
